### LIBRARIAN'S REPORT

|                   |      |
|-------------------|------|
| Total circulation | 3124 |
| Fiction           | 2171 |
| Junior            | 535  |
| General           | 150  |
| Magazines         | 268  |

The increase in circulation over last year is very pleasing.

Miss Shaw, at North Lyndeboro, has had one box of books and Miss Colcord at Perham Corner two. Miss Lane, at the Center, has also had two boxes of books from the Library Commission at Concord.

Mr. William Kimball loaned his typewriter, so most of the new books have been card catalogued.

Ten books have been given to us and fifty-seven purchased.

Among those given were "The Challenge to Liberty" by Herbert Hoover, by the publishers, Charles Scribner's Sons, and "The Triumph of an Idea," a story of Henry Ford, by the Ford Company.

The Wilton Town History is in very bad shape and should be rebound at once.

In the spring the librarian went to a Neighborhood Meeting at the Hudson Library, which was very instructive and enjoyable.

In the Reading Room we have the National Geographic, given by the Improvement Society, The Literary Digest, Collier's, Saturday Evening Post, Better Homes and Gardens, bought by the town; The Milford Cabinet, given by Mr. Rotch; The Troubadour, by the State Development Commission; also Recruiting News and the Christian Leader.

MAUDE M. EASTMAN,  
Librarian.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board and Citizens of Lyndeboro:

I respectfully submit my twelfth annual report as your Superintendent of Schools.

The State Legislature of 1933 enacted a provision requiring the State Board of Education to reduce the number of supervisory unions in the state from the sixty existing at that time to fifty-five in 1933-1934 and to fifty for 1934-1935. This second reduction resulted in the addition of Francestown and Greenfield to the six towns which formerly comprised Supervisory Union No. 63; Wilton, Greenville, Lyndeboro, Mason, New Ipswich and Temple. The new towns add approximately one hundred children and four teachers but the closing of two rural schools in Wilton leaves a net increase of only two teachers.

The Superintendent's time is not apportioned among the towns in the supervisory union by any fixed rule, but rather he is expected to give attention to each school according to its needs. It is too early to predict what the ultimate results of the change in this Union may be, but it is apparent now that each school will receive less attention than formerly, not only because there are more schools to be visited in a given time, but also because the increase in administrative duties necessarily reduces time available for visiting.

We are using standardized tests:

A. To compare progress in the various schools with fair standards of accomplishment.

B. To discover general weaknesses where they may exist in any school and point the way to improving teaching at such weak points.

C. To assist the teachers in discovering the particular weaknesses and needs of individual children

and help direct their instruction throughout the year.

The tests used include the Stanford Achievement Test which covers nearly all of the subjects taught in Grades 3-8. This test is given every year in October and is repeated in May for children whose October scores in the test were low. In Grades 1-3 we use the Gray Oral Reading Check Tests at intervals of five or six weeks throughout the year. We have begun this year to use the Metropolitan Primary Reading Test also in Grades 1-3 and Metropolitan Primary Arithmetic Test in Grades 2 and 3. These are given in January. All tests are given by the teachers, who follow very exact and minute directions in order that the tests may be given under uniform conditions in every school.

The form of report card was revised this year in order to provide for systematic reporting of each pupil's scores in the standardized tests, so as to give to parents a more complete picture of their children's success in school.

The medical inspection was made early in the fall by Dr. Burns of Milford. His report shows the examination of seventy-four pupils with the following defects discovered: Underweight 20; Defective Vision 7; Anaemia 11; Cardiac Disease 1; Pulmonary Disease 1; Defective Speech 1; Defective Teeth 37; Diseased Tonsils 14; Unvaccinated 4. Since no school nurse is employed this year very little follow-up work has been done. However, the unvaccinated children have been taken care of and we know that several parents have attended to corrections. Also money was made available from Federal Relief for children and four tonsil operations and one fitting of glasses were taken care of in December.

The budget estimate of money needed next year shows an increase of approximately \$550 over last

year. Medical inspection was estimated at \$35 last year, but is costing \$65 at the present time. Last year's estimate of \$500 for transportation was nearly \$100 too low. Insurance, which was carried for a three-year period, falls due again next year. High school tuition will call for a larger assessment since only four pupils graduate from high school and there are ten in the present eighth grades, most of whom will go to high school. The repair item has been kept low for three years and there are several major repair items that ought not to be postponed longer. The South School needs a new roof and a new stove, and both these needs are imperative; the estimate cost is \$250. The \$100 in the regular minor repair item should take care of the ordinary repairs in the other buildings.

There will be a substantial increase in state aid for next year, due chiefly to the decrease in the amount of the \$5 tax from \$3,905.88 to \$3,625.25. This automatically increases state aid \$280.63.

Respectfully,

VERNON S. AMES,

Superintendent.

Wilton, N. H., February 14, 1935.
